Favorite Tick and Why: *Amblyomma maculatum* because it is large and transmits *Hepatozoon americanum*

.

Favorite Tick and Why: *Amblyomma maculatum* because it is large and transmits *Hepatozoon americanum*
.

Education: M. S. (1999) Northern Michigan University; Ph. D. (2003) Oklahoma State University

Title: Assistant Professor

Phone: (405) 744-8159

Fax: (405) 744-5275

Email: mason.reichard@okstate.edu

Area of Research Expertise: Veterinary Parasitology

Research Interests: General and veterinary parasitology; tick-borne diseases; zoonotic parasites of wild animals.

Teaching: Veterinary Parasitology I (VMED 7223) to first-year veterinary students; Ecology of Infectious Diseases (ZOOL 5010) to zoology graduate students; contributing lectures and labs in Veterinary Parasitology II (VMED 7323) to second-year veterinary students and Diagnostics (VMED 7933) to fourth-year veterinary students.

Selected Publications: (Last 3-5 years)

P. H. Joyner, **M. V Reichard**, J. H. Meinkoth, V. E. Milne, A. W. Confer, A. A. Kocan, J. P. Hoover. 2007. Experimental infection of domestic cats (*Felis domesticus*) with a novel *Cytauxzoon* -like piroplasm Veterinary Parasitology: 146: 302-306

Reichard, M. V., R. F. Wolf, D. W. Carey, J. J. Garrett, and H.A. Briscoe. 2007. Efficacy of Fenbendazole and Milbemycin Oxime for Treating Baboons infected with *Tric huris trichiura* . Journal of the American Association of Laboratory Animal Science: 46(2): 42-45

Mixson, Tonya R., Scott R. Campbell, James S. Gill, Howard S. Ginsberg, **Mason V. Reichard** , Terry L. Schulze, and Gregory A. Dasch. 2006. Prevalence of *Ehrlichia, Borrelia,* and *Rickettsial* Agents in *Amblyomma americanum* (L.) (Acari: Ixodidae) Collected from Nine States. Journal of Medical Entomology: 43(6): 1261-1268.
