"There is nothing I can suggest to help this practice. The service, the staff, the students, and the veterinarians are outstanding in every way. I have never encountered an office (medical, veterinary or otherwise) which exhibits this high level of professionalism. I only wish I had known of this practice before now because I am sure I would have spared several pets much pain and suffering if they could have received care, here. "

The staff greeted us with kindness, understanding, and a treatment plan. They continued to communicate with us regularly and it was very, very comforting. They were always very patient with me as I asked questions, too, and I appreciated that so much.

"I can only express my admiration and respect for the entire staff, Jill Murray, Candace, Dr. Ketz, Dr. Rochat, and the entire administrative staff for an absolutely incredible attempt to not only save my pet rabbit's broken leg, but in taking every available method possible to fix it. The level of communication is to be praised, with daily updates, and explanations regarding the procedures, as well as the phone calls needed for the rabbit after he is taken home, and continuous checks on how I am progressing at home with his care.

I have Oklahoma State University, the College of Veterinary Medicine, and all the wonderful individuals who work there, to thank for such considerate care and concern, over a small animal, who is like family to our house."

"I live 4.5 hours away from Stillwater one way. I could have saved time by taking the 3 hour trip to Dallas or Little Rock, but I was told that OSU was the best. I had to travel to Stillwater 3 times in 7 days. Although I spent several hours on the road, I do not regret my decision to bring my dog to OSU. The care my miniature schnauzer received from Dr. Ryan Baumwart was outstanding. He was able to perform a necessary procedure on my dog with short notice. The procedure went extremely well and I attribute that to Dr. Baumwart's expert medical experience. My dog was also assigned two students. I could not have asked for better communication, especially when I had to leave my dog and return home. I had a great experience and I am thankful for the great people who cared for my dog."

"My experience at OSU large animal clinic was wonderful! I called another Veterinary School about a month ago and left a message. I never heard from them. I called OSU at 8:15am on Wednesday and received a call from Dr. Holbrook within the hour. My horse was then seen on Friday morning. All the students and staff were so nice and answered my abundant questions thoroughly. I loved the experience of being involved in the evaluation and diagnosis of my horse and listening to the thought process of the students. The staff was great about keeping my financial limitations in mind during the evaluation, diagnosis and treatment of my horse. Thank you, Dr. Holbrook and OSU Large Animal Clinic. I have been here many times with my own horses, and have had a good experience each time. I wanted to recognize one staff member in particular and that is your technician Judy Branson.
